SOFTWARE ENGINEERING

Project: Health Center Management

Group: 12

Minutes of meeting logs

Meeting 1

Objective

A meeting to discuss the brief overview of the project and for planning to create the login and signup pages for the health center application.

Date: 22/02/23

Time: 9:00 PM

Attendees

Akshar Chaudhary (202001071)

Vaibhav Jindal (202001073)

Rohan Reddy (202001076)

Noopur Chaudhary (202001091)

Nipun Shah (202001096)

Dev Kabra (202001105)

Gangaraju Bopparam (202001107)

Jaineet Deora (202001111)

Kavish Shah (202001114)

Main Discussion

Discussed the following:

- The scope and need of having an application for a healthcare center.
- The functional and non-functional requirements of the application.
- Details of the functionalities of the login and signup pages.
- Details of the inputs needed to be taken from a new user in order to register on the application.
- Design of layout pages for login and signup.
- Division of the login and signup pages into frontend and backend and then dividing the tasks among group members.

Actions to be taken

Group members to complete the task assigned to them before the next meeting.

Conclusion

An overview of the project was given and the work on the project got started after the division of tasks among the group members.

Meeting 2

Objective

A meeting to discuss the implementation of the login and signup page, the difficulties and problems encountered in doing so and the testing method to ensure smooth functioning.

Date: 1/03/23

Time: 10:00 PM

Attendees

Akshar Chaudhary (202001071)
Vaibhav Jindal (202001073)
Rohan Reddy (202001076)
Noopur Chaudhary (202001091)
Nipun Shah (202001096)
Dev Kabra (202001105)
Gangaraju Bopparam (202001107)
Jaineet Deora (202001111)
Kavish Shah (202001114)

Main Discussion

Discussed the following:

- Cross checking the work done by group members according to the task assigned.
- The design of the implemented frontend of the login and signup pages.
- Slight changes in the frontend design.
- The integration of the frontend with the backend with proper inputs and outputs from and to the user.
- The different methods of how to test the login and signup page and ensure smooth functioning.

Actions to be taken

Testing needed to be performed on the signup and login page in order to check whether a user is able to register and log into his account or not.

Conclusion

The design of the pages was finalized and testing of these pages was planned.

Meeting 3

Objective

A meeting to discuss the further plan of the project after completing testing of login and signup and planning for the next increment.

Date: 9/03/23

Time: 9:00 PM

Attendees

Akshar Chaudhary (202001071)

Vaibhav Jindal (202001073)

Rohan Reddy (202001076)

Noopur Chaudhary (202001091)

Nipun Shah (202001096)

Dev Kabra (202001105)

Gangaraju Bopparam (202001107)

Jaineet Deora (202001111)

Kavish Shah (202001114)

Main Discussion

Discussed the following:

- Decided to create the appointment booking page and prescriptions page and implement the video call feature for online consultations.
- Discussed the functionalities and options to be present in each page in order to make it usable.
- Discussed the rough design of the pages and the frontend part.
- Divided the frontend and backend tasks among group members.

Actions to be taken

Tasks assigned to each member to be completed before the next meeting.

Conclusion

The first increment of the project was completed and the second increment was started with this meeting. Module for increment 1 is concluded.

Meeting 4

Objective

A meeting to discuss the implementation of the appointment booking and prescriptions pages, and the video call feature for online consultation and their testing strategies to ensure smooth functioning.

Date: 17/03/23

Time: 9:00 PM

Attendees

Akshar Chaudhary (202001071)
Vaibhav Jindal (202001073)
Rohan Reddy (202001076)
Noopur Chaudhary (202001091)
Nipun Shah (202001096)
Dev Kabra (202001105)
Gangaraju Bopparam (202001107)
Jaineet Deora (202001111)
Kavish Shah (202001114)

Main Discussion

Discussed the following:

- Cross checking the work done by group members according to the task assigned.
- The design of the appointment booking page and the options to be selected by the user while booking an appointment.
- The design of the “my prescriptions” page and its user interface.
- The working of the video call feature for online consultation.
- The testing methods needed to test the implemented pages and functions.

Actions to be taken

Testing to be performed on all pages and functions implemented in the second increment in order to complete the increment.

Conclusion

The design of the pages was finalized and testing was planned for increment 2.

Meeting 5

Objective

A meeting to discuss the results of the testing on booking appointments and video calling. To discuss the development of further functionalities

Date: 11/04/23

Time: 9:00 PM

Attendees

Akshar Chaudhary (202001071)

Vaibhav Jindal (202001073)

Rohan Reddy (202001076)

Noopur Chaudhary (202001091)

Nipun Shah (202001096)

Dev Kabra (202001105)

Gangaraju Bopparam (202001107)

Jaineet Deora (202001111)

Kavish Shah (202001114)

Main Discussion

Discussed the following:

- Discussed the results of the testing performed in the second increment.
- Concluded testing for booking appointments, video conferencing and my prescriptions page.
- Discussed the features and functionalities to be included in the download reports and order medicines pages.
- Discussed the options to be made available for easy usage by the user.
- Improvement of User Interface
- Discussed the details of the doctors to be added in the book appointments page for ease of access of the user.
- Divided the tasks among the group members.

Actions to be taken

Improvement in UI in all layouts and development of newly added functionalities.

Conclusion

Increment 2 is concluded and tasks for remaining functionalities were divided among team members.

Meeting 6

Objective

A meeting to discuss the implementation of the download reports and order medicines pages and their testing strategies to ensure correct functioning. To plan for the final testing of the app.

Date: 17/04/23

Time: 9:00 PM

Attendees

Akshar Chaudhary (202001071)
Vaibhav Jindal (202001073)
Rohan Reddy (202001076)
Noopur Chaudhary (202001091)
Nipun Shah (202001096)
Dev Kabra (202001105)
Gangaraju Bopparam (202001107)
Jaineet Deora (202001111)
Kavish Shah (202001114)

Main Discussion

Discussed the following:

- Discussed added doctor details according to their field of specialization.
- Discussed the design of the pages and suggested some changes.
- Discussed about the testing strategy to check proper integration of the frontend with the backend

Actions to be taken

Testing of the implemented pages to be performed to ensure correct functioning.

Conclusion

The third increment of the project was concluded with this meeting.

Meeting 7

Objective

To conclude final testing and finalizing documentation that was made through the project.

Date: 21/04/23

Time: 9:00 PM

Attendees

Akshar Chaudhary (202001071)

Vaibhav Jindal (202001073)

Rohan Reddy (202001076)

Noopur Chaudhary (202001091)

Nipun Shah (202001096)

Dev Kabra (202001105)

Gangaraju Bopparam (202001107)

Jaineet Deora (202001111)

Kavish Shah (202001114)

Main Discussion

Discussed the following:

- Verified the final testing of application
- Discusses the things that are needed to be included in the documentation.
- Gathered all the available documentation that we made from the start of the project
- Divided the documentation task among group members

Actions to be taken

To complete the remaining part of the documentation which includes SRS, Testing and other design documents.

Conclusion

Development phase has been concluded and documentation is started.

Meeting 8

Objective

To Complete Documentation and start Presentation and YouTube Video.

Date: 26/04/23

Time: 9:00 PM

Attendees

Akshar Chaudhary (202001071)

Vaibhav Jindal (202001073)

Rohan Reddy (202001076)

Noopur Chaudhary (202001091)

Nipun Shah (202001096)

Dev Kabra (202001105)

Gangaraju Bopparam (202001107)

Jaineet Deora (202001111)

Kavish Shah (202001114)

Main Discussion

Discussed the following:

- Checked whether all the documentation required for the meeting is completed.
- Decided what to add in YouTube Video and Final Presentation
- Divided the making of YouTube video and presentation among group members

Actions to be taken

Start making presentation and YouTube Video

Conclusion

Project has completed successfully and documentation is ready to be submitted.
